Thin/Fine Hair Consultation and Scalp Analysis:

30 minutes with a specialist to discuss your hair history and desired look. Using a Nioscope to magnify the hair shaft up to 200 times, the stylist will analyze your hair density, growth pattern, medical diagnosis/medications and daily routine to develop a plan to achieve optimum hair health, new growth and the option of real and synthetic hair pieces to add volume and/or length. \$60 (Must be paid at time of booking)

Scalp Renew Treatment:

A dermabrasion treatment is an anti-aging treatment to help regenerate and revitalize scalp skin through exfoliation, acting like a facial for the scalp. Scalp Renew is a cosmetic hair treatment that removes build-up on the scalp to help restore it to a good condition by accelerating skin surface regeneration by up to 34% compared to untreated skin. Recommended every 45-60 days. \$45 added on to a haircut, color or blow dry service.

Thin or Fine Haircut:

A thorough consultation with a specialist, a thickening shampoo with relaxing scalp massage, a precision cut and style. You will also receive product education regarding the latest technology that allows you to achieve maximum hair & scalp health, volume and a finished look every day. \$75

At your appointment, a Color and Thinning Hair Specialist will apply highlights or lowlights to add dimension to flatter your features and brighten your look. Perfectly placed color will add depth to create a more voluminous appearance. This service also includes a customized glaze to achieve desired tone and ultimate shine and is finished with a blow dry. \$165
